

"Personnel Security"

Delete Subparagraph II.2.b., page 9.

Change Subparagraph II.2.a. to read:

"When a system is approved to process collateral information
[~~up to but excluding Top Secret~~], all personnel ..."
(remainder unchanged)

RATIONALE: The two cited Subparagraphs differ only on the basis of the collateral information being processed, Top Secret or other than Top Secret -- the security provisions are identical. Accordingly, the distinction and the two separate, parallel provisions are considered unnecessary. Further, the above change would render the "Personnel Security" portion consistent with the analogous change we recommend for the "Physical Security" portion (i.e., Subparagraph II.4.b).
